PROFILE

Vancouverite and graduate from NAIT in application development with over a decade of experience working in high-stress, fast-paced, team environments. My mission in the web dev world is to mobilize the internet and bring it to every device imaginable. A flexible skillset from database to browser means being able to jump into any part of the development process.

SKILLS

BACK END   • PHP • C# • Java • *SQL • ASP.NET • OOP • MV*
FRONT END   • HTML(5) • (S)CSS • JavaScript • Angular.js • AJAX • Responsive
